# Heritage patio doors

ROW has set the industry standard for patio doors. The quality, performance and aesthetics of this line of patio doors serves as testament to ROW's commitment to the industry and the product it produces. Smooth operation, secure locking mechanism and weathertight seal are all characteristics of this line—and a superior patio door.

## STANDARD FEATURES

- 4 9/16" all PVC frame with integral nailing fin.
- Multi-point lock and strong interlocking meeting rail provides added security and air tightness.
- Heavy duty extruded aluminum screen frame can also be locked from the inside.
- Operating panel is fusion welded for optimum strength.
- Can be installed so door fixed light is on right or left.
- Adjustable, double tandem rollers ride on anodized aluminum track for smooth operation.
- Vertical stiles are metal reinforced.
- Multi-chambered PVC profiles offer added rigidity, strength and maximum comfort.
- Weatherseal around complete perimeter forms a positive seal between frame and panels.
- Insulated, tempered glass with warm edge technology.

## OPTIONS
